

Toledo Neighborhood Block Watch Program

The Toledo Neighborhood Block Watch Program is a city-wide, independent, non-political, community partnership involving neighborhood volunteers, law enforcement, and other community services. The Program serves to make neighborhoods safer and more wholesome. The purpose of Toledo Neighborhood Block Watch is to form a partnership among citizens, city services, and other community organizations in an effort to improve the quality of life in their neighborhood.

The goals of Block Watch are:

- To assist in coordinating the efforts of members representing law enforcement, local government, and citizens into a cohesive effective force.
- To empower neighborhood residents and challenge them to accept their share of the responsibility for the overall quality of the life in their respective neighborhoods.
- To work in partnership with the community to identify and address concerns affecting the integrity and well-being of their neighborhoods.

Block Watch participants:

- Communicate with neighbors to know their habits and activities so you can notice out-of-the-ordinary incidents and report them to the proper authorities.
- Report suspicious persons and activities to the Toledo Police Department
- Report blight and health issues and actively work to eliminate them from their neighborhood
- Attend regularly scheduled Block Watch meetings and/or participate in electronic networks to share information with other Block Watch members. Attendance at Block Watch meetings provides the opportunity for one-on-one interaction with your neighbors, law enforcement, City officials, and community organizations and agencies. There are many monthly neighborhood Block Watch meetings held throughout the City. Members of the community are encouraged to attend any and all that they wish. Please see below for a list of dates, times, and locations.

The Benefits Block Watch

A Block Watch program in your neighborhood, whether it has high crime or not, will have many rewards for you and your family. Block Watch programs are known to instill a great sense of security and well-being in a neighborhood, and reduce the fear of crime. As well, they create a greater sense of community and put the neighbor back in neighborhood. Block Watch programs also bring law enforcement, City services, and the community together as a team to reduce crime and blight.

Some of the other benefits of Block Watch are:

- Participants are taught how to take preventative measures that substantially decrease the likelihood of becoming a crime victim.
- Participants are educated on how to accurately and promptly report suspicious activity to law enforcement.
- Block Watch participants are informed about crime trends and patterns so they are better prepared to spot criminal activity and stop it in their neighborhood.
- Criminals know that a neighborhood is involved in an active block watch because “Toledo Neighborhood Block Watch” signs are posted. Convicted burglars have reported avoiding neighborhoods that have a block watch.
- Block Watch promotes getting to know your neighbors and their regular patterns so you will be able to recognize any activity that is out of the ordinary. This means that when you are away, you can feel secure that your property is being watched over by your neighbors.
